Why SmartMusic?

SmartMusic is a browser-based music education platform that connects teachers and students.

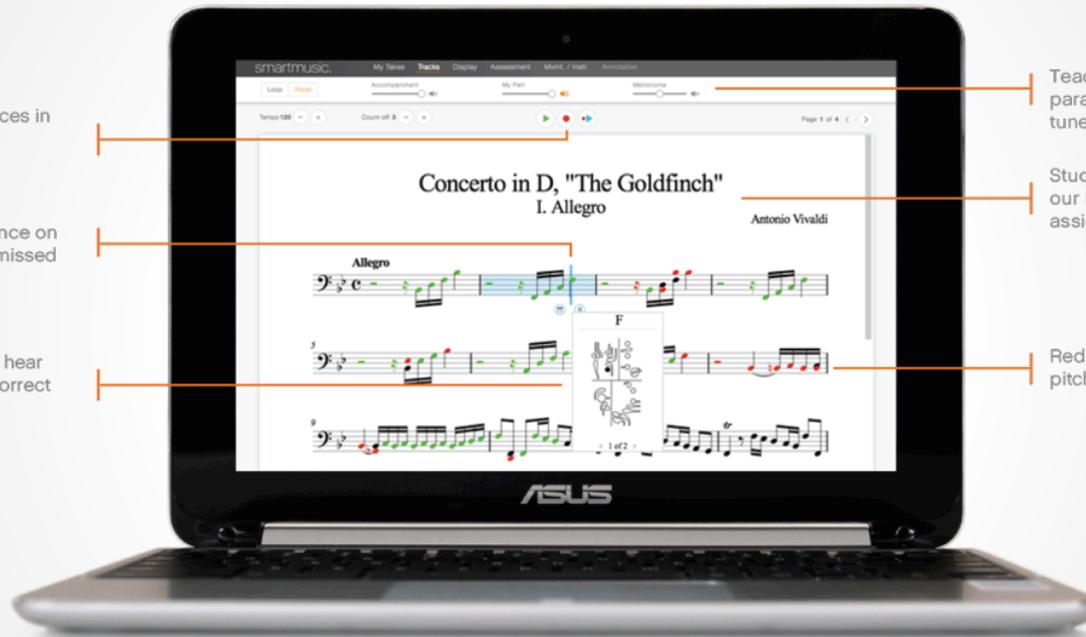

It facilitates focused practice, assessment and immediate feedback, making the link between educator and student even more powerful.

Flip the Classroom

Students can record their performances in an assignment and send their best performance to their teacher.

Immediate feedback provides guidance on what pitches and rhythms are hit or missed so students know what to work on.

Click on a note and choose to either hear the note or display a chart with the correct fingering.

Teachers set key and tempo in assignment parameters. Students control practice loops, tuner and hear their part or accompaniment.

Students practice exercises and songs from our huge repertoire library to complete assignments.

Red notes are early, late, or have the wrong pitch. Green notes are correct.

Immediate Feedback

- Like a *tutor with infinite patience*
- *Immediately* shows students what pitches and rhythms they hit or miss
- Students *know what to work on* to get the best grade

Guided Practice

- ***Differentiate*** assignments in many ways
- Much like a math or english teacher can assess individual student learning with a worksheet assignment, SmartMusic helps music teachers use *home practice data to focus on individualized student needs and guide future instruction.*
- Creates a ***portfolio*** of student work and progress

Repertoire

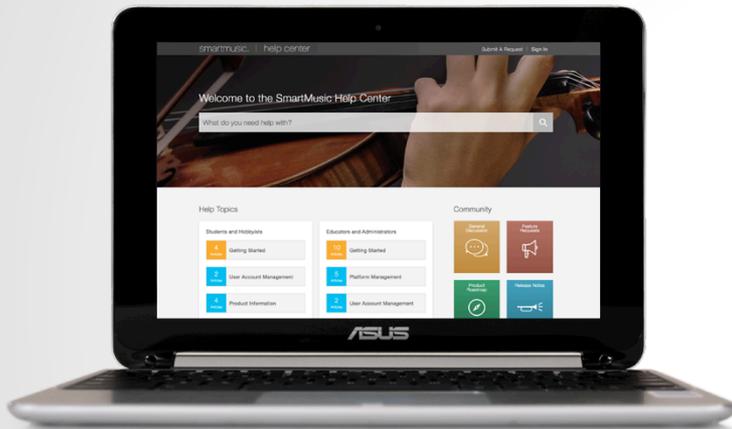

SmartMusic includes thousands of pieces for band, orchestra and choir, which can be assigned, including:

- Method books
- Ensemble titles
- Solos
- Practice exercises & scales
- Sight-reading materials
- Predefined assignments

PLUS, the ability to import self-created compositions (from any music notation software)

Tech Support

- Includes Help Center support
- No need for technology department to intervene; web-based platform means updates are done *automatically*
- Export the SmartMusic Gradebook for use in any LMS
- Compatible with devices students use, including Chromebooks, desktops, laptops, and iPads

SmartMusic Gets Results

- Transforms practice from passive repetition to ***active learning***
- Students experience ***faster progress***
- Motivating and ***fun to use***
- No more guessing – ***immediate feedback***
- ***Differentiated*** assignments & grading scales
- Grades are based on ***skill achievement***, not just practice minutes

SmartMusic Subscription Structure

- **TEACH subscription** = platform for the organization that includes all the tools teachers need to:

Create classes

Enroll students

Send assignments

Utilize gradebook functionality

TEACH Seats - refers to teacher access; ability to access ALL content from the SmartMusic library
