

GARRITAN HARPS™ SOUND LIBRARY

50-word description

Garritan Harps is an innovative virtual harps collection. This sound library captures the pure, pristine recordings of each harp string, along with a full-range of harp articulations and techniques. New technologies feature advanced glissando emulations, sampled acoustic spaces, and much more. Bring the magic of the harp to your music!

100-word description

Garritan Harps is an innovative virtual harps collection. This sound library captures the pure, pristine recordings of each harp string, along with a full-range of harp articulations and techniques. New technologies feature advanced glissando emulations, sampled acoustic spaces, and much more. Garritan Harps features a variety of harps including Salvi Pedal, Venus Concert Grand, and Lyon & Healy. Innovative technologies allow you to easily bring beautiful harp sounds to your music. The Garritan Harps sampled sound library integrates the uniquely powerful and high-performance ARIA Player. Bring the magic of the harp to your music!
