

Why SmartMusic?

SmartMusic is a web-based music education platform that connects teachers and students.

It facilitates focused practice, immediate feedback, a powerful link between teacher and students.

Flip the Classroom

Teachers set key and tempo in assignment parameters. Students control practice loops, tuner and hear their part or accompaniment.

Immediate feedback provides guidance on what pitches and rhythms are hit or missed so students know what to work on.

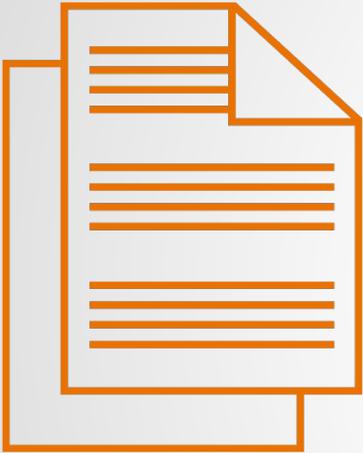

Click on a note and choose to either hear the note or display a chart with the correct fingering.

Students can record their performances in an assignment and send their best performance to their teacher.

Students practice exercises and songs from our huge repertoire library to complete assignments.

Red notes indicate an incorrect pitch, and show the student which note they played. Yellow notes indicate the student was early or late, depending on placement. Green notes are correct.

Repertoire

SmartMusic includes thousands of pieces for band, orchestra and choir from more than 100 publishers, including:

- 100+ Method books
- Ensemble titles
- Solos
- Practice exercises & scales
- Sight-reading materials

PLUS, the ability to import or create custom music and curriculum from scratch.

Guided Practice

- ***Differentiate*** assignments in many ways
- Much like a math or english teacher can assess individual student learning with a worksheet assignment, SmartMusic helps music teachers use *home practice data to **focus on individualized student needs and guide future instruction.***
- Creates a ***portfolio*** of student work and progress

Immediate Feedback

- Like a *tutor with infinite patience*
- SmartMusic *Immediately* shows students what pitches and rhythms they hit or miss
- Students *know what to work on* to get the best grade

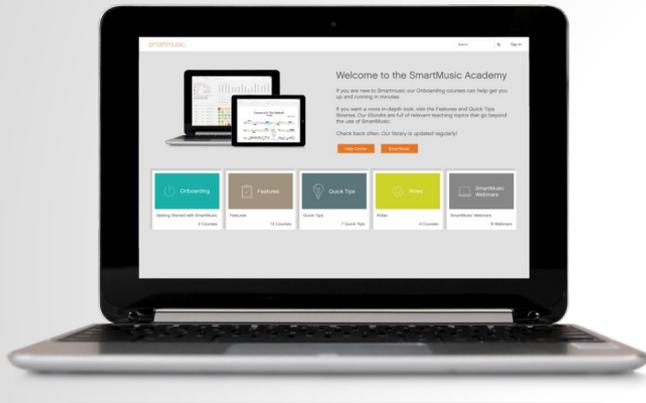

The Ultimate Online Tool

In addition to immediate feedback and assessment, SmartMusic includes tools specifically for music educators:

- Gradebook: fully cloud-based, with custom rubrics
- Sight Reading Builder: create infinite sight reading exercises online
- Compose: upload or build custom music curriculum and notation; students and teachers can share compositions
- Practice Analysis: teachers see exactly how long students practice

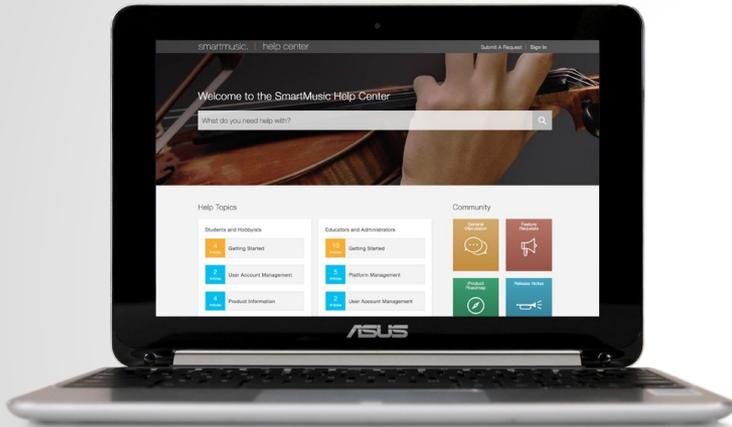

Training and Professional Development

- Free training resources available for teachers at any time with SmartMusic Academy
- Short video courses mean teachers always have what they need
- District implementation and paid training options available

Tech Support

- SmartMusic provides phone and email support for teachers, parents, and students
- No need for technology department to intervene; web-based platform means updates are done ***automatically***
- Compatible with devices students use, including Chromebooks, desktops, laptops, and iPads

Student Privacy

SmartMusic takes privacy seriously.

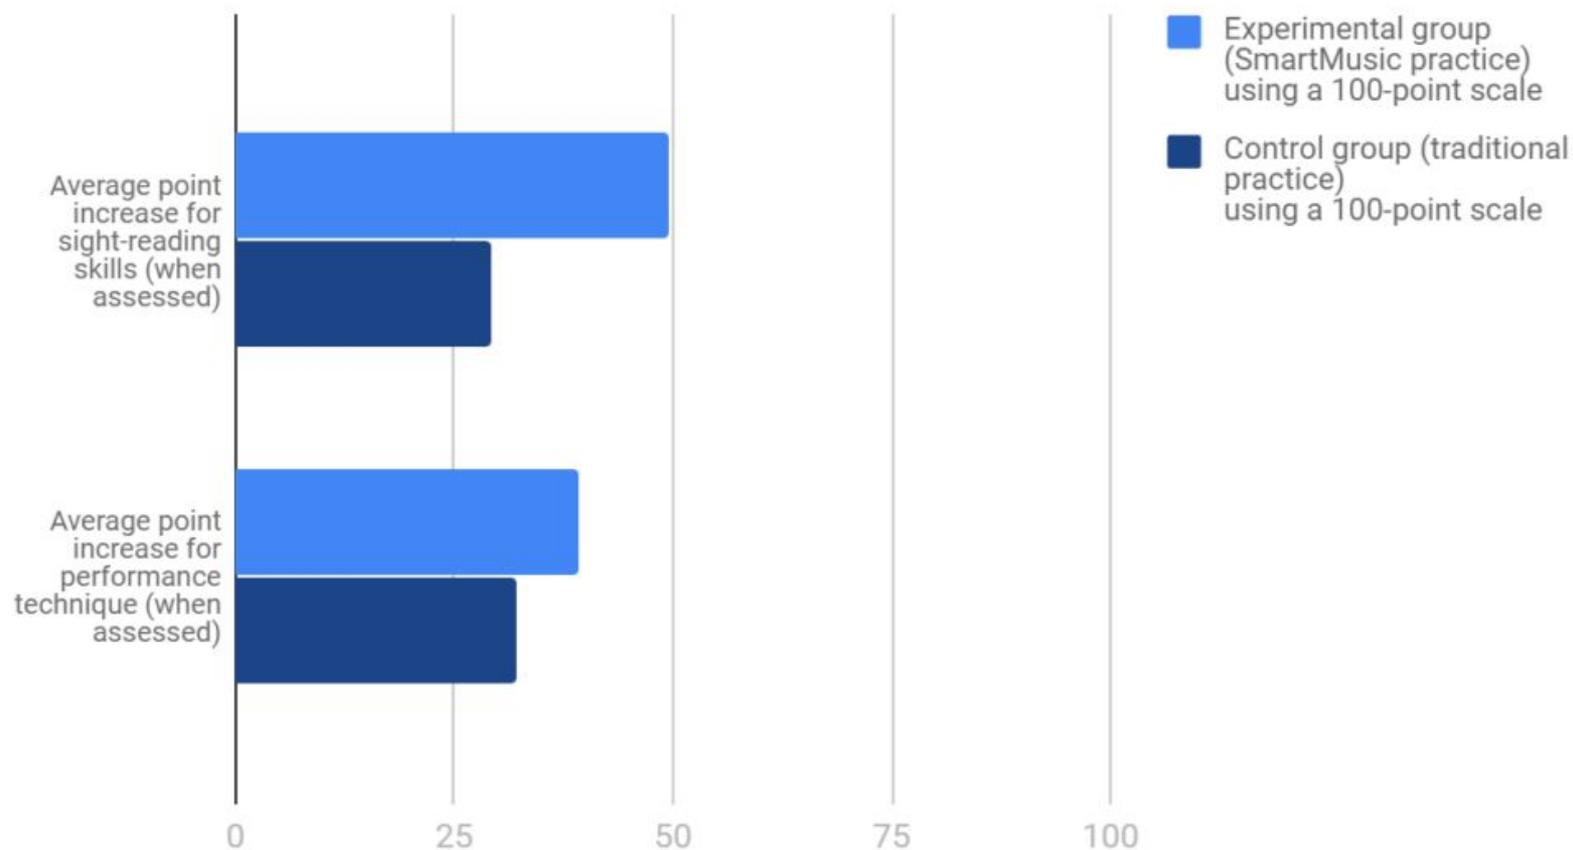

SmartMusic is fully COPPA and FERPA compliant, so you and your school never have to worry that student data is unprotected.

SmartMusic Gets Results

Average growth using SmartMusic vs. traditional methods

SmartMusic Gets Results

"The new SmartMusic is much better than the older classic SmartMusic. Using the Sight Reading Builder we were able to double the number of students we had from our district in the all-state bands."

J. Kelly Diamond

Band Teacher // Georgetown Middle School

"I can really hear how students are playing the assignments. The other feature that I really like with the web-based is the practice analysis. Being able to track my students usage on Smartmusic has really helped each of them individually reach their playing goals."

Melissa Clark

String Teacher Grades 4-8 // Lawrence Township Public Schools

SmartMusic Gets Results

- Transforms practice from passive repetition to ***active learning***
- Students experience ***faster progress***
- Motivating and ***fun to use***
- No more guessing – ***immediate feedback***
- ***Differentiated*** assignments & grading scales
- Grades are based on ***skill achievement***, not just practice minutes

SmartMusic Subscription Structure

- Academic Pricing - *requires 25 student or 3 teacher purchase*
 - Teacher Access - \$40/teacher/year for full access
 - Student Access *starting at less than \$1/student/month*
 - \$10/student/year for Standard access - assignments only
